Compact Desktop Transcription Machines

TRC 8080/TRC 8800

Compact Desktop Transcription Machines

Dictating notes or recording meetings is only part of the process, allow a typist to convert the recordings to text by using a compatible Sanyo Desktop Transcription Machine.

With features like Automatic Backspace standard on even the most basic models, all Sanyo Transcription Machines have been designed to provide the typist with a means to produce fast and accurate transcription.

Strong and durable, these machines are able to withstand constant use and come complete with a Headset, Power Supply and Heavy Duty Foot Control – everything you need to get the job done.
