

GRUNDIG Dt 3110

The Dt 3110 together with the 756 FX microphone represents the ideal dictation machine, which can also be used for conference recordings. When equipped with a foot control and headphones it can also be used as a transcription machine. The LCD panel shows the tape counter function, which matches the counting speed of the handheld recorder.

- *Adjustable rewind (with foot control) and variable playback speed (+/-15%)*
- *Fast forward and rewind, high-speed erase*
- *Early warning signal for tape end*
- *Built in dynamic loudspeaker*
- *Includes one MC 60*

Dt 3110
